SUNWARD EUROPE HEAVY INDUSTRY N.V

Add: Nijverheidspark 3,3580
Beringen, Belgium
Tel: (0032-011) 434666
E_mail: eu@sunward.cc

- **Engine power 48.6kW**
- **Machine weight 2830kg**
- **Rated operating capacity 750kg**

Please read the manual book and maintenance book before operation. Changes are periodically added to the information, and Sunward may change the products or services described in this book at any time without announcement. All rights of this manual book reserve to Sunward.

SWL EN 2019

◆Strong Power

The customized Kutoba engine imported with original packaging can reach the strictest emission standards (EU Stage5 and EPA T4F), and it features strong power, high reliability, low noise, energy saving and environmental protection.

◆Curve Hoisting Trajectory

Optimized structure designation enable machine to have higher lifting height than other brand.

Operation with pilot handles

◆Pilot Handles

Traveling and actions are all controlled by pilot handles, featuring light and handy and agile operations.

◆Double-accelerator Control

The SWL2830 skid load is of the double-accelerator control mode. The manual accelerator control is used for working places requiring a constant power, while the foot pedal accelerator is used for excavation and loading.

◆Closed Hydrostatic Traveling System

Static hydraulic traveling system, equipped by advanced anti-overloading hydraulic device, large-torque motor, big driving force, with self-brake function, safe and reliable.

◆Standard Quick Coupler

Adapt to international common quick coupler, fast change various kinds attachment. Majority of attachments can be used in Sunward skid steer loader.

- Wide space and good vision, easy in and out, all of button and switch is reachable.
- Conform to FOPS/ROPS standard cab structure.
- Three-level electric starting protection system.
- Complete warning beacon, warning signal and reverse horn.
- Rear window detachable.

Equipped with heater and air conditioning, choose appropriate configuration depending on different regions.

Large-discharge output

Standard-discharge output

Electronic control output

A large-discharge system can be selected. With the confluence of two pumps, the product increases the output discharge to meet the demands of more large-discharge accessories such as milling machine.

◆ Standard Hydraulic Horizontal Hoisting

Standard hydraulic horizontally, lift the movable boom ensure invariant bucket angle with the ground, to prevent falling material, reduce the labor intensity of the operating personnel.

◆ Emergency Descent Function of Working Unit

The boom can safely conduct the emergency descent in case of the stalling of engine.

Maintenance & Repair

A Air filter

B Oil return filter

C Hydraulic oil tank cap

D Fuel filter

E Oil-water separator

F Fuel tank cap

G Engine oil filter

H Auxiliary tank

L Heater valve switch

Equipment

The standard and optional equipment varies from country to country.

Product Parameter

Operation Parameter			
A	Maximum overall height	mm	3850
B	Height to hinge pin	mm	3002
C	Height to top of cab	mm	2014
D	Height to bottom of level bucket	mm	2834
E	Length without standard bucket	mm	2604
F	Length with sandard bucket	mm	3318
G	Maximum dump angle	°	42
H	Dump height	mm	2320
J	Dump reach	mm	475
K	Rolback angle (bucket on ground)	°	30
L	Rolback angle at maximum height	°	97
M	Wheelbase	mm	987
P	Ground	mm	220
Q	Departure angle	°	25
R	Turning radius from center (Coupler)	mm	1235
S	Turning radius from center (Bucket)	mm	1953
T	Turning radius from center (Machine rear)	mm	1531
U	Bumper overhang behind rear axle	mm	1021
V	Width over tire	mm	1293
W	Bucket width	mm	1600
